Let’s dive into this week’s highlights

We sat down with Mary Robinson, Former President of the Canadian Federation of Agriculture, whose deep commitment to both sustainable farming and environmental stewardship sheds light on the future of food production.

We also connected with actress and activist Nathalie Kelley, who shares her thoughts on being recognized for her work in Indigenous Tech, and Karim Mouait, who offers fresh perspective, and confidence—in the ever-evolving insurance industry (yes, a true tongue twister!).

This issue features three essential questions every small business owner should consider—insightful, practical, and thought-provoking. Plus, we explore the growing Microfinance Movement and its powerful role in advancing female empowerment across communities.

And for those looking to upgrade their drive, don’t miss our spotlight on the all-new Mazda CX-90—an elegant, reliable hybrid built for the road ahead.

Happy readings!
